

Description

Sheer DesenZ™ is an easy, fast way to relieve oral pain and discomfort associated with dental procedures or even the hot/cold thermal changes teeth may experience. The thin, flexible film stays where it is placed molding to the teeth and gums to deliver relief exactly where it is needed. Yet it is easily removed when comfort is achieved.

Counter Indications

- Do not smoke while wearing the film.
- Avoid eating while wearing the film.
- Flush with copious amounts of water if accidentally placed in eye.
- Keep out of reach of young children.
- Avoid contact with clothing.

	Attention - Refer to the instructions for use and complete information.
	Storage Temperature - Store product at the indicated temperature.

Storage & Handling

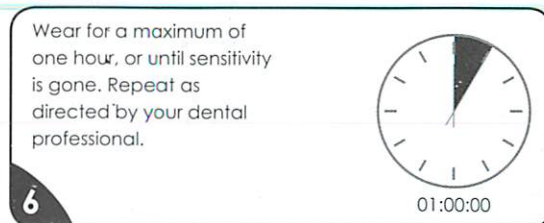

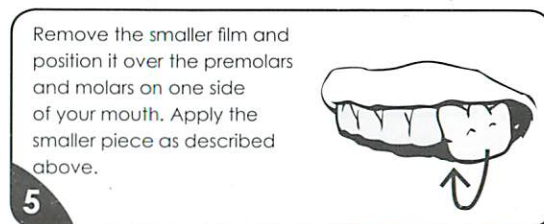

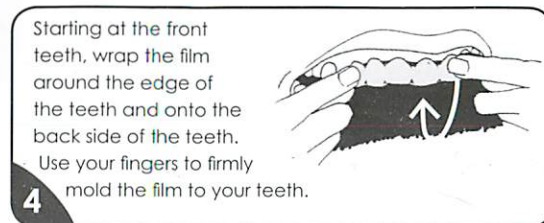

- Do not store above 100°F (38°C). Do not freeze. Do not use beyond indicated shelf life.
- Do not use if the packaging has been damaged, or if the seals are found to be broken or open.

Shelf Life: 2 years
